EASTERN AFFAIRS.

Movements of Turks and Russians--Preparations for Winter Quarters--Insurrection in Asia.

LONDON, October 2.—A Reuter telegram from Bucharest says two hundred Turks have crossed by a pontoon bridge to Kalarach from Silestria. Russian reinforcements continue crossing the Sereth into Wallachia. The Russians have ordered contractors to construct three hundred kilometres, about 186 miles, of railway in Bulgaria and to build huts for 150,000 men and hospitals for 15,000.

The action of the Russian armies in Asia, was explained by an official dispatch from St. Petersburg, announcing that an insurrection had broken out in the central districts of Daghestan about the 12th of September, and gradually spread until all the central and southern Daghestan, including the Coast districts, were involved.

On the 23rd and 24th of September the Russians attacked the main body of the insurgents, numbering 6,000 strong, and defeated and dispersed them. It is now believed that the insurrection will not give further trouble.

RAGUSA, October 3.—Two thousand Bashi-Bazouks, and 2,000 cavalry have arrived at Mostar in Herzegovinia, where a force of 10,000 is concentrating to recover the territory conquered by the Montenegrins.

WASHINGTON.

More Swindling---The Indians Heard From.

WASHINGTON, October 3.—A thirty thousand dollar defalcation in the Post-office Department is developing.

General Negley, ex-member of Congress, who was indicted in the matter of bogus logs furnished for the construction of Fort Negley, at Nashville, forfeited his bail yesterday. Two of the accused plead guilty. The trial of the third was progressing, when General Negley appeared in court. He was allowed to give new bonds, and his case was continued.

Official—The Nez Perces crossed the Missouri river at Cow Island on the 22d of September. Maj. Ilges, with his party of citizens, struck them eight miles up Cow Creek on the 25th. Ilges lost a man and a horse and withdrew. Ilges reports them in full force between Bear Paw and Little Rock Eyes on the 28th, travelling slowly and carrying many wounded. Joseph burnt Coffee's freight train on the way to Fort Benton, killing two.

Sturgis, at last accounts, was at Camp Lewis. His horses are worn and his men without food.

General Sheridan is entirely in the dark regarding operations at Clark's Fork. He feels that the only chance to capture the whole outfit since it left Lou Lou Pass, was lost there.

Burning of McKeesport, Pennsylvania.

PITTSBURG, PA., Oct. 3rd., 2 A. M.—Fire broke out in the town of McKeesport, 13 miles south of this city, at 11 o'clock last night, and is spreading rapidly, it threatens at this hour to destroy the entire business portion of the town. Aid asked for this morning, and two engines are now on the way. The fire originated at the Pittsburg Car and Locomotive Works, which were entirely destroyed, from thence it crossed 5th street, and at last accounts was spreading in all directions.

Burning of a Car House--Heavy Loss.

NEW YORK, October 4.—The shops and stables of the Dry Dock Street passenger Railroad company, corner of avenue B, and 14th streets was burned this morning, with all the cars. About eight hundred horses were liberated and ran through the streets. It is thought that none perished. The loss to the Dry Dock Company will probably exceed 500,000 dollars. The entire number of cars belonging to the company, 180 in all, were stored in this building and burned like tinder.

Minnesota Democratic Convention.

ST. PAUL MINN., October 3.—The Democratic State Convention in its first resolution denounces the frauds and crimes by which the selection of President and Vice-President was reversed. The second congratulates the country that President Hayes found it necessary to adopt the Democratic policy of self-government, and to abandon devices for perpetuating sectional jealousy and hatred.

William Banning was nominated for Governor.

More of the Boiler Explosion.

WHEELING, W. VA., October 3.—Additional particulars from Pipe Creek, where the boiler of the steamer "Comfort" exploded, says that Captain Kirkbridge, pilot Ramsetter, and a passenger named Soupless, were killed. The wounded are Rev. Mr. Baer, of Pittsburg, Andrew Harrison, the mate, and several passengers whose names are unknown. Cause of explosion not known.

They Swindle in England, Too.

LONDON, Oct. 3rd.—The Sheffield *Independent* says, investigation is proceeding into a series of gigantic and astounding frauds, perpetrated upon one of the great railways of the Kingdom. Before many days there may be expected a full revelation of one of the most startling plots ever known in history of railway enterprises.

Jules Simon Has a Carbuncle.

PARIS, October 3.—Jules Simon is suffering from a carbuncle. *L'Evenement* says that he underwent an operation for it which was not attended with favorable results. His condition is precarious.

Meeting of the Conductors' Brotherhood.

ELMIRA, N. Y., October 3.—The Conductors' Brotherhood of the United States is holding its 11th session. Sixty delegates present.

In New York.

NEW YORK, October 3.—Alexander H. Stephens and Robt. Toombs are in New York.

Archbishop Baily Dead,

NEWARK, Oct. 3.—Archbishop Bailey died at 10:50 o'clock, this morning.

Heavy Forgeries.

NEW YORK, October 3.—The Forgeries of W. C. Gilman & Co., aggregate a quarter of a million. They have been carried on for two years. The firm had been engaged in an insurance scrip business forty years. Mr. Gilman is *non est* since Saturday.

NIGHT DISPATCHES.

Episcopal Triennial Convention.

BOSTON, Oct. 3.—The Triennial Convention of the Episcopal Church of the United State opened to-day. A vast concourse of people were present long before the services began. The audience was composed of Episcopalians only. The morning was devoted entirely to religious services. A sight which the church presented from beginning to the end of the exercises such as probably never has been seen before in the city.

The ritual of this morning's service, was of course, from the high position of the dignitaries conducting it the most imposing and elaborate which the Episcopal church has. The body of the church was reserved for delegates to the General Convention, and these consisted of four clergymen and four by deputies for each of the forty-five Dioceses in the different sections in the country. Besides these there were over two hundred clergymen and theological students present.

At 11 o'clock the line of Bishops nearly sixty in number filed in at the main entrance and marched down the centre aisle to the chancel, the younger ones after entering the aisle formed on each side that the seniors in the order of their dates of consecration might lead to the chancel. The Bishop of Kentucky, the Rt. Rev. Benj. Bosworth Smith, D. D. LL. D., whose date of consecration is 1832, headed the line followed immediately by the Bishops of Michigan, Maryland, Delaware, Mississippi and others in the order of seniority. The Bishop of Iowa the Rt. Rev. Wm. Stevens Perry, D. D., coming last. After the Bishops were seated in the chancel, the services began and proceeded in accordance with the ritual of the church. Dr. Potter, of Grace Church, New York, made the exhortation and confession, and the sermon was preached by the Rt. Rev. J. Williams, D. D. LL. D., Bishop of Connecticut. The communion was celebrated by Rt. Rev. B. Bosworth Smith, D. D. LL. D.

The house of clerical and lay deputies met and organized by electing Dr. Alexander Burgess, of Massachusetts, President.

WASHINGTON.

Official Changes--Roll of the House--Confirmation of Shafter and Bullis' Exploit on the Border---Sunset Cox---Wells and Anderson Case.

WASHINGTON, October 3.—Judge Wm. B. Warden has been appointed a member of the Board of Health vice Langston, who goes as minister to Liberia.

Senator Dorsey disavows any expressions which could be construed into reflections upon Senators Spencer or Patterson.

The roll of the House is 145 Democrats, 130 Republicans. Contests, 1st and 4th California, 4th and 6th Louisiana and a member from Colorado.

Official reports confirm the newspaper accounts of Shafter and Bullis' exploit across the Rio Grande. The Mexican orders were not to attack the Americans but to see them over the river.

S. S. Cox, candidate for Speaker, has headquarters at the Riggs House.

Wells and Anderson of the Returning Board have retained Shellabarger and Wilson of this city. Jeremiah Black will assist the prosecution.

New York Democratic Convention.

ALBANY, October 3.—D. B. Hill was chosen temporary chairman. A large number were unable to enter the hall. Thirty-six Tammany, and twenty-six anti-Tammany delegates were admitted to seats on the floor, pending the contest.

The committee of which Augustus Schell was one was appointed to conduct Hill to the chair. Schell said:

"*Mr. Chairman*—I feel honored and complimented by the notice you have taken of me in recognizing me as a delegate to this convention. I regret to say, however, that I am informed that persons not connected with any regular organization, who have no standing in the Democratic party, have been recognized by the State general committee and appointed delegates. I must decline the honor until my title to a seat shall have been passed upon by the convention."

Mr. Schell is a Tammany delegate from New York.

FURTHER FROM THE ALBANY CONVENTION.

Tammany Ahead--Foreshadowings of the Nominations.

ALBANY, October 3.—To-day's proceedings in the Democratic Convention are considered to have made two points clear. First, that the anti-Tammany men from New York City will be allowed no position whatever, in the convention, and second, that those who favor a new State ticket will carry their point. The Tammany men are out spoken in declaiming that party policy, discipline and organization forbid further parlying with factions, and that there must now be a square issue between the supporters of the regular and the irregular organization. The known sentiment of a large majority of the committee on contested seats renders it certain that they will report unqualifiedly in favor of seating the Tammany, and excluding the Anti-Tammany delegates. Allen C. Beach still seems the favorite for nomination of Secretary of the State. To Alcot's renomination for comptroller there is no opposition, and Ross' nomination for Treasurer appears to be nearly as well assured. The nominee for Attorney General apparently must be taken east of Albany, and Schoonmaker of Ulster is freely named. John B. Haskin is also mentioned as a possible candidate.

And Still Another.

PITTSBURG, October 3.—The Allegheny savings bank, the oldest in Allegheny county, has suspended.

Morton.

RICHMOND, IND., October 3.—Morton's friends hope he will be able to take home to Indianapolis within two week.

ENGLAND.

A Tenacious Constituency--More of the Railroad Fraud.

LONDON, Oct. 3rd.—John Bennett twice elected Alderman and each time rejected by the court of Aldermen as unfit to discharge the duties of that position, has again been elected to that office.

A Derby correspondent of Leads *Mercury* says Midland is the railway defrauded, fraud has been systemically carried on for some time by some of its officers, holding positions of responsibility, in whom the utmost confidence was placed. The principal means by which the company has been defrauded, has been by persons erecting private dwelling houses and other buildings, both for themselves and other people, with material and men belonging to the company. Several of the delinquents are, it is said, in prison. It is rumored that others will be arrested shortly.

Yellow Fever Statement.

JACKSONVILLE, October 3.—A dispatch from Fernandina says the heavy and continuous rains last week have been extremely hard on the sick. Dr. Starbuck states that the city is in a more deplorable condition than it has been since the epidemic commenced. It has been raining all day. Scarcely a white person can be seen on the streets. It is impossible to get any reliable information regarding the sick. Most of the physicians are sick. Dr. Martin is the only one able to do full practice. Dr. Geddings, president of the medical society of South Carolina, has offered his services if they think it necessary to call him.

A later dispatch says there have been no deaths to-day. There are six new cases—three whites and three colored.

Further from the N. Y. Fire.

NEW YORK, October 3.—The car depot of 14th street and 13th avenue was burned. Five of the upper stories were filled with horse feed, including 14,000 bales of hay, also 93 cars and valuable machinery. Loss half a million.

Vessel Foundered Off Cape Hatteras.

NEW YORK, October 3.—The steamer "Magnolia" from Savannah Sept. 27th for New York was foundered off Cape Hatteras. The passengers and crew saved.

Another Gone the Same Way.

BOSTON, October 3.—The Cape Cod Five Cent Savings Bank has suspended.

Probabilities.

WASHINGTON, October 3.—For the South Atlantic States, increasing easterly winds, cloudy and rainy weather, stationary temperature and falling barometer.

(Correspondence of the News.)

CAMERON, N. C., Oct. 3rd, 1877.

Editor Raleigh News:

Sir:—I had the pleasure of visiting Hamlet yesterday, the junction of the Raleigh & Augusta, and Carolina Central Railroads. Everything tends to show the good management of the efficient Superintendent, Maj. J. C. Winder. The first Carolina Central cars were brought over by Capt. Crutchfield, the very efficient engineer, and conductor of material train. The cars were loaded with cotton from Atlanta, Ga., destined for Liverpool, England. This looks ominous of success for through freight from the South over the Raleigh & Augusta Line.

VOLO.

SIOUX ON THE STAGE.

Big Chiefs from the Council Join the Buffalo Bill Combination.

(Philadelphia Times.)

Hon. W. F. Cody, or more familiarly "Buffalo Bill," accompanied the Indian chiefs on their recent mission to the President, served as one of the interpreters, and, with Gen. Crook, advocated their claims. Both the general and the scout have been terrible foes to the red men, particularly the Sioux, Cheyennes and Shoshones, represented at the council. Since the massacre of Custer General Crook has commanded in nearly all of the engagements had with these hostile tribes, and Buffalo Bill has probably killed more of their warriors and can boast more scalps of "big chiefs" than any other man living. Yet these men are held in high regard by the Indians and accompanied them on their visit to the Great Father by their expressed wishes. During the week that the Indians were in Washington Mr. John T. Ford, the manager, arranged with Buffalo Bill for his appearance in a new drama, written for him by Major Burt, U. S. A. The play is founded on incidents connected with the Mountain Meadows massacre, and as Indians are necessarily used in the play, some of the visiting chiefs volunteered their services. Instead of painted "supers" in costumer's regalia, the genuine Indians appeared. The theatre was packed nightly. Mr. Cody has secured several of the leading chiefs to travel with his dramatic company, among whom are Spotted Tail's son, White Tail, Two Bears and Man-that-Carries-the-Sword. These chiefs wish to see more of the white man's nation, and will make the complete tour, with the Buffalo Bill Combination, of all the principal cities in the Eastern, Middle and Western States. The combination opens at one of the theatres in this city this evening.

Serious Brooklinites, with conscientious objections to the playhouse and to burnt cork minstrelsy, may get a roaring farce in the free Friday lectures at Talmage's Tabernacle. Last Friday evening he took up the Jewish and Mormon questions and regretted that he had not time to take up the Savings Bank Frauds, Hayes Tour, and the Morton Swindle. In discussing which were the dirtier, Jews or Gentiles, the reverend speaker said: "I have baptized people who were so dirty that I was tempted to leave them in the tank." In broad farce, Talmage is no slouch when he plays his proper part.

The Election in Connecticut.

HARTFORD, October 1.—The Hartford Democrats elected the entire ticket today by majorities ranging from 250 to 500. There are charges of extensive fraud in several wards. By the new law minority representation is secured in wards of Selectmen and Assesors. The vote in the State on the two constitutional amendments was light, but both are probably carried. The first prohibited extra compensation to public officers and the second prohibited town aid to railroads.

ERUPTION OF COTOPAXI.

More than One Thousand Lives Lost.

[Ecuador Cor. N. Y. Nation.]

The last eruption of the volcano of Cotopaxi, the tenth according to my computation, took place on the 26th of June last, with every circumstance that could increase its horror—utter darkness in broad day, thunder and lightning, fearful explosions that made the earth tremble, subterranean noises and wild gusts of wind, accompanied by a rain of ashes. An eye witness told me that the volcano poured out a cataract of ten times the bulk of Niagara, which carried all before it in its headlong course, and submerged the whole surrounding country. The torrent divided itself in two opposite directions, as if to give greater scope to its devastation and make confusion still more dire. One branch took a southerly course toward the city of Latacunga, situated twelve miles from Cotopaxi. On its way the torrent converted the plain of Callao into an immense lake. There is but faint hope that the ruins of the palace of the Incas, described by Humboldt, and all other travellers through the central valley of the equatorial Andes, have escaped the ravages of the flood. Near Latacunga the furious torrent tore up from its very foundation the cotton factory of Don Jose Villasomaz, whose value was estimated at $300,000; crops, cattle, and buildings were swept away; the massive bridges of Catuche and Pansalvo were destroyed, as well as a part of the fine carriage road (scarce equalled even in Europe), which connects Quito with the towns in the South of the Republic.

THE TORRENTS OF BOILING WATER.

The torrent that headed toward the south of Cotopaxi devastated the prosperous and enchanting valley of Chillo, and in particular the estate of the Senor Aguirre, noted for having been the residence of Humboldt. There, too, as in Latacunga, arose the building of a thriving factory, which, only the year before, had been destroyed by fire, and had been repaired at great expense. The torrent rooted it from the ground, and bore it away in a thousand fragments. It is asserted that a mill of Don Manuel Palacios floated on the water like a ship at sea until shattered by the current. The loss in the valley of Chillo alone is estimated at over two millions of dollars, and the loss in other sections is equally great. It is likewise calculated that the number of the dead exceeds 1,000. Although the surroundings of Quito have been laid waste, the city itself suffered from only a rain of ashes and a complete darkness, which began on the 26th of June, at three in the afternoon. At Machache and other places the night lasted for thirty consecutive hours. In the midst of this opaque gloom one could hear the bellowing of the cattle and the cries of other animals, who, deprived of their usual [illegible] by the shower of ashes, sought, in [illegible] of frenzy, for the means of [illegible] their hunger. Other beasts, [illegible] terror, careered hither and [illegible] in despair, and the piteous [illegible] the dogs pierced the ear [illegible] sound. In Quito the [illegible] that of night; it was lit [illegible] by the younger Pliny [illegible] itus, in which he relate[illegible] Vesuvius and the dest[illegible] poii. It was, he says, [illegible] lights in a room had been extinguished. At Quito the shower at first was of coarse heavy sand, which subsequently turned into ashes so fine and impalpable that they penetrated not only into apartments, but into the most carefully closed receptacles. In the depth of the darkness, men and women, braving the rain of ashes, sallied forth into the streets, screening themselves with umbrellas, and lighting their way with lanterns, and all the while these strange apparitions rent the air with their cries and prayers for mercy. The umbrellas, as well as the green eye-glasses used here on journeys, were no superfluous precaution, although they afforded but scanty protection against the subtle powder; which, it was remembered, had in many cases produced blindness during the eruption of 1843, during the rain of ashes of thirty hours that attended it.

SUPERSTITIOUS FRENZY OF THE PEOPLE

From the the outset the people had unanimously ascribed the disaster to a chastisement of heaven, brought down by the irreligion of the Government, which had arbitrarily closed the churches, and deprived the people of those spiritual consolations that were made doubly necessary by the sad condition of things in general. The idea of a divine punishment spread like wildfire, and, as the tempest raged more wildly, this conviction gathered intensity, until, at last, groups of men, without a leader, without any concerted plan, and without arms, threw themselves upon the guard of the military hospital, while others attacked the guard stationed at the powder magazine on the hill of Javira. There were but few troops in the garrison, the greater part having been sent to suppress the insurrection in Imbabura; but the assailants, lacking arms and direction, were promptly overpowered, with no further loss than that of two soldiers and two citizens. On the day following, before the city had recovered from its consternation, and while clouds of ashes still hovered in the air and pervaded the streets, five of the unhappy prisoners who had been taken during the tumult, suffered the barbarous punishment of five hundred lashes. Some have died in consequence. The facts needs no comment. A number of respectable citizens have been arrested, and are to be subjected to a court-martial. In the present wretched condition of Ecuador, ruined as it is by a series of disasters, the recent eruption is the culmination of its woes. Ten years of peace and prosperity, of which there is faint prospect now, will not suffice to repair the evils which a few hours have wrought in this unfortunate land.

CHINESE YOUTHS AT HARTFORD.

Promising Reports from Yung Wing--What They are Doing.

[Boston Post.]

The one hundred and fifteen Chinese lads who were brought to this country from China by Yung Wing, some time ago, are said to be prospering finely at Hartford, where they have their headquarters. Yung Wing was allowed to choose the boys, from seven to fourteen years of age, and to bring them to this country and give them such a training as he saw fit. For this purpose the Chinese Government appropriated $1,500,000, and in 1872 the first party of boys arrived in Hartford, followed in 1873 and 1874 by others. These represent the wealthy aristocratic Chinese. As soon as the boys reached Hartford they were put by twos with American farmers' families in Connecticut and Massachusetts towns, so that they might learn the language as quickly as possible. But so that their Chinese schooling might not be lost, they came alternately to the headquarters in Hartford and spent three weeks in exclusively Chinese studies. A fine edifice has been erected in Hartford by Yung Wing, near the residences of Marshall Jewell, General Hawley, Mark Twain and Harriet Beecher Stowe. Some of the boys have got far enough along to enter Yale College, and in the school contests they have invariably beaten their American schoolmates. From college they will go to the professional schools, and then will be ready to return to China, where they will spend their lives as teachers. It is Yung Wing's opinion that the influence of one hundred and fifteen able men, thoroughly educated, and, more than all, thoroughly Americanized by the fifteen years spent here in their boyhood, cannot fail of ultimately removing all obstacles that Chinese bigotry has thus far put up to progress. These mandarins live in elegant style, and are much given to receptions. They entertain handsomely. To be invited to their great dinners, of which four or five are given annually, is a treat greatly prized in Hartford. They dress in the choicest of Chinese silks, and drink a wine made of rice, which is very treacherous, as some of the dignified deacons who have dined with them and just sipped the wine have found out to Hartford's scandal.

[Specials to the Philadelphia Times.]

More Conspirators Against the Government Arraigned.

WASHINGTON, October 1.—To-day, in the Criminal Court, the case of Julius Witowski, Aaron Brummer, James T. Elliott, Henry Fetterberg, James S. Negley, Lewis Pick and David C. Stewart, for conspiracy to defraud the government by means of a fraudulent claim for $20,705 for timber, alleged to have been furnished the government in October, 1862, was called. Stewart and Brummer plead guilty and a motion was filed to quash the indictment as to Witowski, the only one of the parties present besides Stewart and Brummer, which was overruled. The case of Witowski was then proceeded with and a jury selected.

The Ohio Clerks Told to go Home.

WASHINGTON, October 1.—An order was read in the Executive Departments to-day to all whom it concerned, that all the Ohio clerks in the departments could have ten days leave to go home to vote and that pay for that time would not be deducted. As no secret was made of the reading of the document it can hardly be possible that it could be promulgated without the consent of the President. Its dictum is in flat contradiction of the position taken by Secretary Schurz.

Senator Patterson to be Arrested.

WASHINGTON, October 1.—Information has been received here that a requisition has been issued for the arrest of Senator John Patterson upon indictments recently found against him by the South Carolina grand jury. Patterson has retained the notorious "Billy Mitchell, [illegible] of this District, who will plead [illegible] privileges for the South Carolina carpet-bagger. Patterson himself is here, as loud as ever, and says he's not afraid.

Hayes and KelloggTalk.

WASHINGTON, October 1.—Kellogg, ex-Governor of Louisiana, had a long interview with President Hayes to-day, the purport of which, the former declared, shall ever remain a secret in his manly bosom.

Fears of a Coup d'Etat in France

LONDON, October 2.—The Paris correspondent of the *Times* telegraphs: It was rumored last night that the Duke de Breglie and M. Berthaut had resigned from the French Cabinet. This report, for the present at least, is unfounded, but the alarm which it created was very remarkable. The apprehension of a forcible coup d'etat by the government is so great here that the resignation of the Duke de Broglie and certain of his colleagues who are known to be opposed to such measures would be considered as a preface to a violation of law, though it is hard to tell in whose interest such a violation would be. I know from a perfectly trustworthy source that the Empress disapproves of the government's course since the 16th of May last. The Prince Imperial is also said to have lately expressed a similar disapproval.

A Newark Enoch Arden.

(New York World.)

Mary Oberhaulzer was yesterday committed to the Essex County Jail at Newark, N. J., in default of bail, to await trial on a charge of bigamy. About a year ago she was deserted by her husband, and as a diligent search and inquiry failed to reveal his whereabouts, Mary married again. Her second husband was Frederick Bubsam and the couple began housekeeping at No. 275 New Jersey Railroad avenue. On Saturday night Oberhaulzer returned, and as Mary refused to have anything to do with him, and Rubsam refused to surrender her, he caused her arrest, and Justice Otto committed her.

On the day following Senator Conkling's New York Convention the Republicans of Jefferson county, that State, met and passed resolutions approving the policy of the President. It is quite likely this fire on the rear of the Conkling party may be continued pretty generally throughout the State, as was the case in Maine. It is really desirable to know which is the bigger man, Hayes or Conkling.

The Patent Office Fire Incendiary.

WASHINGTON, October 1.—The committee of inquiry conducting the investigation as to the origin of the recent Patent Office fire will, it is alleged, report that it was the work of incendiaries.

It is officially announced that Right Rev. James Gibbons, Bishop of Richmond, expects to preach his farewell sermon in the Cathedral of his present episcopal see on Sunday, the 14th of October. He will then go to Baltimore and assume the title of Bishop of Ginopolis and Coadjutor to his Grace Most Rev. Archbishop Bayley.

SOUTHERN NEWS.

The Richmond people complain that they can't sleep on account of the all night tinkle of the bar-room bell-punch.

The Greensboro *Beacon* intimates that the loss to the cotton crop of Hale country, by the equinoctial gale, will amount to 1,500 bales.

At Nashville, Secretary Evarts proclaimed Andrew Johnson a great patriot. On every stump in Ohio, Mr. Stanley Matthews denounces him as a traitor.

The Decatur (Ala.) *News* says that a flourishing Lutheran colony is now established at Leighton. Already have 67 persons arrived, including two clergymen. All hail from Indiana.

A Chinese hag has been placed on bail in San Francisco, on the charge of cruelly treating a child, to give her the fashionable Chinese little foot. The member was shockingly distorted.

The New Orleans *Democrat* of Saturday announces the burning of five sugar houses on the Teche. It is supposed to have been the work of negro incendiaries. The loss is estimated at $150,000.

Mr. John Dollars, of Pulaski county, Georgia, was married to Miss Julia Moore the other day. This looks like the remonetization of the dollar of our daddies, and the prospect of an increase in the issue is good.

A [illegible] the effect that an English company has purchase the Brunswick and Albany Railroad, and that it will be at once extended to Eufaula. The Albany *News* thinks there is truth in the rumor.

"Again let me assure you, my Southern brothers," said Mr. Evarts, at one of the wayside stations, but before he could complete the sentence the train started. Thus do trifling events interfere with the destiny of a great republic.

Representative Alexander H. Stephens, who is now in Washington, favors the election of Mr. Randall to the Speakership and says that his course during the closing hours of the Forty-fourth Congress is worthy of the thanks and gratitude of the whole country.

The Eighth Annual Session of the Grand Lodge of Good Templars is being held in Montgomery, Col. J. J. Hickman, presiding. The reports of high officers show the order to be in a healthy condition and very prosperous in many localities, the present number of lodges being 95, with a membership of 3,209.

STATE NEWS.

The *Observer* thinks all the Charlotte military companies will be at the Fair.

Dr. Watkins is fitting up a cigar factory in Newbern, as we learn from the *Newbernian*, and will employ native Newbern girls in manufacturing the cigars.

Newbernian: In a few short weeks the Newbern cotton factory will be in active operation. The factory building is rapidly approaching completion, and when finished will be ornamental in appearance, and roomy in its dimensions.

Oxford *Torchlight*: We learn that several of our farmers have made a complete failure in curing this year. With some it was the bad condition of the barns, and with others it was damp weather. This is to be regretted, for when a farmer makes a failure with his tobacco, it is a total loss.

Raleigh *Register*, 2nd: We understand that Gen. John C. Goman, who is Inspector General of several States in the internal revenue service, was engaged yesterday in examining the various gaugers, deputy collectors and store-keepers as to their duties, for the purpose of making a report as to their efficiency.

Hillsboro *Recorder*: The Rev. A. W. Mangum, now Professor in the University of North Carolina, is among those spoken of to succeed the Rev. Mr. Duncan, deceased, late President of Randolph Macon College. While we admit the appropriateness of such appointment, we can ill spare Mr. Mangum from his own distinguished sphere of duties.

Two colored thieves stole an ox from the plantation of Col. John D. Whitford, near Newbern, last week; the Colonel followed them and they deserted the ox and ran into the woods. They were caught the next day and lodged in Jones county jail whence they will probably remove to some of the public works of the State after Court.

Hillsboro *Recorder*: We were shown in Greensboro a tombstone in the hands of the workmen designed for the grave of a man who has been buried more than one hundred years. The inscription records the virtues of Shubael Searns, who organized Sandy Creek Baptist Church in Randolph county in the year 1755, and who died Nov. 20th 1771. Verily his friends were late in thinking about him.

Alamance *Gleaner*: So far the matter of the Superior court clerkship for this county is in doubt. Judge Kerr has appointed Armstrong Tate, and Judge Buxton, has appointed John T. Vincent. With whom the power of appointment is, seems to be a question—at least it is a matter about which there is a difference of opinion between two Judges. We hope the matter will be speedily settled that we may have a clerk of the court.

Charlotte *Observer*: The fair grounds of the Carolina Park Association were sold in front of the court house yesterday, as advertised, and were bought in by Mr. R. M. Miller for the company, at the sum of $1,000. This includes about forty acres of ground and all the buildings. The price for which it was sold can by no means be considered a fair estimate of the value of the property. It is understood that there are a good many judgments against it, and several law suits pending in the courts.

Newbernian: Report says that there are one hundred and forty applications for the position of conductor on the A. & N. C. R. R., and that the directory at its meeting on Thursday last, after laboring, in the way of balloting, one and a half hours, was unable to make a choice from the array of aspirants, and consequently adjourned till October 16th, with the view of obtaining time for more deliberate consideration, and to give all other candidates an opportunity of filing their applications.

Charlotte *Observer*: Sometime during Sunday night, David Fulwiler, a white man, who was drinking heavily, was led off to a secluded spot near the fair grounds by two colored men and struck on the head with a slung-shot. He was found the next morning in an insensible condition, with his head cut to the bone. When last heard from, he was still very ill, and it was seriously feared that he would not recover. The guilty parties are known to the constabulary, but have not been captured. It is supposed that they designed roberry.

A WORD TO THE PEOPLE.

Congress will soon meet. Now is the time to begin to write to your members and Senators in Congress for more mail facilities. Do not be backward. They are your servants and are sent by you to Congress not merely to honor them but to represent your wants. Since 1860 post offices and post routes have *increased* 40 per cent. at the North and *decreased* 10 per cent. at the South. The South holds one-third of the population of the Union, pays one half the taxes and gets one-tenth of the disbursements. Call these things to the attention of your member of Congress or Senator and tell him where the people need a new post route or post office. North Carolina demands and must have a decided increase of mail facilities. The general government owes us much and pays us little. We call for a change.

PROF. A. R. LEDOUX.

We learn that the *Farmer and Mechanic* of this city has secured as one of its contributing editors, Professor A. R. Ledoux. He will be remembered for his services at the University last summer, and by his analysis of the fertilizers sold in this State, the publication of which created such a sensation. He will render good service on the *Farmer and Mechanic*, and its farmer readers will doubtless learn from his pen many startling facts about the fertilizers for [illegible] saving out so much money for years past. One of the chief objects of the Agricultural Department is to protect the farming class from impositions of the sort heretofore practiced on them by the dealers in fertilizers. It is peculiarly appropriate that for the paper published under the auspices of the Department such a man as Prof. Ledoux has been secured as one of its editors.

ANOTHER ANTI-BOURBON.

The gallant soldier who presides over the editorial columns of the *Roanoke News* is evidently no Achilles sulking by his ships. He spends no time raking in the ashes of the past, but recognizing that the real duty of the hour is the suppression of sectionalism. He seems to be like the Irishman who said that he was for *peace* if he had to fight to get it. We clip the following from his last issue. They are good and brave words:

Senator Conkling seems determined to raise a row in Republican New York. Disappointed and reckless, he seems determined to engulf his party in a common ruin with himself. To this we do not object. But the time has passed when the old hates and prejudices consequent upon the war, can again be revived to disgrace us. And the sooner Senator Conkling learns that the good men of both parties, North and South have determined to stand by President Hayes in the constitutional administration of our government, the sooner he will command that respect to which his position entitles him. There are sore heads, to be sure, who endorse nothing, and who, like the quaker, are prepared to protest agaist all things. But these are but a small folk in numbers, and all their efforts to the contrary will not stay the tide of good feelings and anti-sectionalism that is sweeping over our broad land. The people are equally tired of the bloody-shirt cry of the north, and the bayonet rule slogan of south. Both are things of the past, and this same Senator will learn that they will arouse no echoes in either section of our common country. Springing from the unnatural and chaotic condition of things that always succeed war, the return of reason was fatal to them. And they have fled from the approach of good feeling between the sections, as does the bat from the dawn of day.

Immigration.

(Tarboro Southerner.)

ED. SOUTHERNOR:—In your last issue you ask something about immigration and Eastern North Carolina, but you do not suggest any remedy or propose any plan. Now sir, every editor in the State has a plan of some character, in his head or pigeon hole—on this subject, and the correct thing for him to do is to publish it. If all would do this the next legislature could easily gather sufficient, from their combined wisdom, to put it in a condition to enact a beneficial bill for the entire State. Speak out. Do not wait for the legislature to meet and pass an imperfect bill and then display your knowledge, or information on this subject, by severe criticisms on its work. Tell us what your section needs, what inducements it holds out to seekers for homes, what your lands produce, what they can be made to produce, where they are located, what they can be purchased for, what kind of emigrants you mostly need, what kind of climate you have, what your society is, give the educational advantages of your section, the communications with the outside world, tell what kind of internal improvements are going on in your neighborhood, &c., &c. It would be well to mention how your laws are executed and how effectually they protect life and property, state also what your rate of taxation is, and what it would be if the State's debt ws compromised according to your ideas, or if it was repudiated, ("which is very likely,") all these facts are important if you wish emigrants to investigate or consider your section. Eastern North Carolina possesses advantages worthy of any man's consideration, but if they are not published they will remain unknown and unappreciated. This silent course that North Carolinians have been pursuing has been followed long enough. They must wake up and with firmness and ability worthy of their glorious old mother, speak out their minds; yes, they must tell the world what North Carolina has done, and what she can do. Sleep is for the sluggard, listlessness for the idiot, aimlessness for the fool and nothing for the drone, but for the active and vigilant, the sincere laborers, and the true and the brave, North Carolina offers opportunities unsurpassed by any land under the sun, and Eastern North Carolina is equal to any portion of it. "Here's my sentiments."

Yours &c., B. F. W.

Tweed on The Stand.

(Philadelphia Times.)

Tweed is still making New York howl with his revelations, and every time he goes upon the stand he sits down on a tender spot. On Saturday that noble Republican reformer, ex-Police Commissioner Disbecker, got a centre shot in connection with Apgar, Deputy Secretary of State of New York. The former was one of those truly good men who came into place on the downfall of Tweed, but previous to the decline of the ring he was not above receiving fifty dollars a month from it for doing nothing. Mr. Apgar was on a small salary as a stump speaker. The old man detailed at considerable length his mode of securing the support of the Albany nawspapers, and repeated what was generally known in 1870, that the members of the ring corrected the proofs of the articles which were to appear in the Republican organ, the *Journal*, and they were printed as corrected. The most important portion of the testimony of Saturday was that which gave to Tweed, Hall and Sweeney the authorship of the telegram to which Samuel J. Tilden's name was attached, that was sent to the country districts in 1868, asking that the probable result of the election in those districts be telegraphed to New York at the close of the polls and before the vote had been counted. Hostile organs have never missed an opportunity to put the entire responsibility of this upon Mr. Tilden, but he is thus happily cleared of a charge which few who knew anything about him believed.

Heavy Land Claims in Craven and Pamlico.

[Newbernian.]

We learn that there are certain land claims covering what is known as the David Allison tract, containing 18,560 acres in Pamlico and Craven counties on the line of Beaufort county, beginning at Little Swift Creek and running in Pamlico to Broad Creek and Cuthrell Swamp, including improved farms, forests and swamp lands, and embraced in two deeds owned by parties residing in Philadelphia, represented by Mr. J. B. Reed, of that city. Mr. Reed brings these deeds here and submits them to the Judge of Probate of this county for probation and registration. The execution of one of these deeds was acknowledged before the Mayor of Philadelphia in 1798; the other before a Judge of the U. S. Circuit Court in that city in 1836. Probate Judge Carpenter decides that the deed acknowledged before the Mayor of Philadelphia in 1798, was not admissable for probate here because there was lacking a certificate from the Governor of Pennsylvania to the effect that said Mayor was a Judge of superior jurisdiction in the meaning of our laws. In regard to the deed acknowledged before the United States Judge, our Judge of Probate withholds action in the premises for further investigation before ordering the same to be recorded. These deeds make claim for nearly all the lands between Bay river and the north side of Neuse river opposite this city, and includes a very rich portion of a large tract in Craven county, a part of which is under a high state of cultivation.

If it is the intention of the alleged owners of this large land grant of an ancient origin, to bring suits to dispossess the present occupants and owners, our Probate Judge is right in requiring that these deeds must meet all the requirements of our laws before allowing them to be recorded. We learn that the several deeds of this character which have been offered for probate in this and other counties in this part of the State, cover claims to the amount of nearly one hundred thousand acres.

Since the above was put in type, we learn that the Judge of Probate declines to probate the deed acknowledged before the U. S. Judge above mentioned, on the ground that it lacks the certificate of the Governor of Pennsylvania, which certificate should be added in addition to the certificate of the Secretary of State of the United States. This decision of Judge Carpenter's was given after consulting Hon. C. C. Clark, our county attorney.

Old Time Tables.

[St. Louis Globe-Democrat.]

At the court of Louis XIV, in the house of princes and nobility, and only for them, the dinner hour, or the time for the "table," was announced by the blowing of horns. They used to sit on benches—bancs in French—thence the word banquet. It was Henry III who first introduced chairs. There were tables of silver and gold. Wooden tables were simply covered with cloths, folded doubly and of homespun linen, made in the houses of the bourgeoise. They hung away down, serving as substitutes for napkins. The first were made at Rheims, and presented by that city to Charles VII, at his coronation. Later they used napkins at court made of velvet, with their coats of arms on them, and richly ornamented by precious stones. But those of linen were also used. Forks were unknown up to the fourteenth century. They carried with them spoons and knives. A knife was called "monk," a fork a "nun," because the husband managed the knife, and the wife the fork. At banquets they used to sit in couples, always man and wife together, and those who sat beside each other ate from one plate, and drank out of one goblet. Wherever in Germany that fashion did not prevail there were separate eating rooms for men and women. There were neither glass nor porcelain in use in the eleventh century.

The vessels of the poorer classes were made of wood and tin, and those of the wealthier of majolica and Fayence. The nobility had silver, silver gilt-plated or gold, which served more to feed the eye than for any practical use—simply to stand on the sideboard, which was called *buffet* in the fifteenth and *credence* in the sixteenth century. At this time the State interferes with the domestic affairs of its subjects, prescribes the number of courses for the table and the expenses of their meals, the cut and length of their clothes. At this time we find the luxry laws of the middle ages still to prevail, to which new ones were added. Philip the Handsome forbade any one the use of golden or silver vessels who had not an income of £6000, and ordered that at a common meal but one kind of soup and one dish should be served. On festive occasions one milk soup and two dishes. Louis XIII ordained that at a banquet held not at home no more than $1 per head—or, rather, per stomach—is to be expended. An ordinance at Basle (1556) declares that a meal is to have no more than 3 shillings [about 5 cents—Tr.] of meat or two batzen of fish per person. A law of the sixteenth century in Venice and Ferrara, fixes a dress not to exceed the price of 15 ducats, and any ornament for a woman not to cost more than 50. Peasant women are forbidden by the law to wear silk, pearls, gold or silver.

The Flood.

[Newbern Nut Shell.]

It has been many years since this section of country was so flooded with water as at the present time. In addition to the heavy rains which fell from Thursday evening to Sunday morning—so severe fifteen hours of this time that 9½ inches of water descended in Newbern—we have had the full benefit (?) of a very high tide. On Saturday, through the combined effects of an overflow of the rivers and creeks coming from above, and the backing up of the water from Pamlico Sound, the lower streets of the city were so flooded that some of our merchants were unable to reach their places of business without the aid of boats. Messrs. Blank & Ulrich, foot of Middle street, found it necessary to remove many of their goods to save them, the water being several inches deep on the floor of their store. The store floors of W. S Styron and Jas. F. Clark, in the same locality, were also under water. At one time the corner of East Front and South Front streets were impassable, as was many portions of both of these streets at other points. The mill yards of Messrs. Wade and Howard, Mr. Samuel Radcliff and Mr. D. Stinson were also flooded, but precautionary measures had been taken and there was but little loss of property.

The county bridges across Bachelor and Core creeks and on other roads leading to Newbern, were partly washed away and at many points on the A. & N. C. Railroad, culverts and bridges were completely submerged in water. We learned yesterday that the damage to the road has been so great that in all probability trains will not be running regularly until Wednesday or Thursday.

One of the results of the storm was the almost total interruption of mail communication. On Friday the mail routes from Washington, Bay River, and Trenton were rendered impassable by the rains, and none of the mails were received or sent. No mail was received or sent by rail or otherwise on Saturday, and consequently our community, except for the telegraphic communications, was as completely isolated from the outer world as it was forty years ago. The interruption in railroad travel resulted in the embargo of several trasient visitors, who put in a forced stay and had ample opportunity of becoming acquainted with our city under the most disadvantageous circumstances.

DRUGS.

DR TUTT'S PILLS

Meet the wants of those who need a safe and reliable medicine. The immense demand which has so rapidly followed their introduction is evidence that they do supply this want, and proves them to be

THE MOST POPULAR PILL

ever furnished the American people. The highest medical authorities concede their superiority over all others, because they possess alterative, tonic, and healing properties contained in no other medicine. Being strongly Anti-Bilious, they expel all humors, correct a vitiated state of the system, and, being purely vegetable, they do not, like other pills, leave the stomach and bowels in a worse condition than they found them, but, on the contrary, impart a healthy tone and vigor before unknown.

OUR WORDS INDORSED

Dr. C. L. MITCHELL, Ft. Meade, Fla., says: . . . "*I know the superiority of your pills, and want to see them used instead of the worthless compounds sold in this country.*" . . .

Rev. R. L. SIMPSON, Louisville, Ky., says: . . . "*Tutt's pills are worth their weight in gold.*" . . .

Had Sick Headache & Piles 30 Years. . . . "*I am well. Gaining strength and flesh every day.*" . . . R. S. Austin, Springfield, Mass.

He Defies Chills and Fever. . . . "*With Tutt's pills, we defy chills. Illinois owes you a debt of gratitude.*" . . . F. R. Ripley, Chicago, Ill.

WANTED

AT CARY, NORTH CAROLINA,

A few enterprising, energetic men, with some capital to help build up one of the best manufacturing and trading towns in the State. We have two Railroads, making it a competing point for both Northern and Southern shipping, giving a great advantage over other points on the line of either Railroad. Anticipating the growth and business of the place I have made some very handsome improvements which I will sell very cheap, and on long time to enterprising parties. From 6,000 to 10,000 bales of cotton may be handled in trade every year.

No. 1 is a three-story brick building with tin roof, 40x120 ft; two large store rooms on first story. The two upper floors are well suited for a large Tobacco Factory; situated in 400 feet of the Chatham Depot.

No. 2 is a new three-story brick hotel, mansard roof with 14 rooms. Dining room 25x35; all elegantly finished. Situated in 200 feet of both railroads. Will rent or sell.

No. 3 is a commodious dwelling with 11 rooms, four of which are 20x20 feet; has a large cellar, a lawn of 1¾ acres nicely shaded and set in grass, two large barns, two clover lots, orchard of nice fruits, vines and strawberries, containing 40 acres of well-improved land under a new plank fence.

No. 4 is a plot of 100 acres under a plank fence, lying on the N. C. R. R., for¼ mile, on which land is two elegant building sites.

No. 5 and 6 are situated in a beautiful grove of native forest trees, each with 7 rooms, smoke house, &c., and are very desirable residences; in 150 feet of the Chatham Railroad.

No. 7 is an elegant residence of 9 rooms on a beautiful wide street, 400 yards from the Railroad and near the academy. Lot may contain two, ten or twenty-five acres.

No. 8 is a comfortable cottage of 5 rooms adjoining the above lot, fronts same street, is on a nice lot of two acres. Large barn &c.

No. 9, 10, 11 and 12, are comfortable 2 room cottages on one acre lots, situated between the two R. Rs.

Any persons wanting houses in a healthy railroad village, where a nice paying business can be built up, would do well to come and see for themselves. If you like you can get any sort of time you desire.

Gone to His Death.

A NEW BRIDGE OF SIGHS—DEDICATED TO FIFTY ODD MOTHERS-IN-LAW

One more polygamous,
Short in the breath,
Frightfully bigamous,
Gone to his death.

Turn not away from him,
Scorning to touch;
Go nearer—pray for him—
Married so much.

Think of his fathers-in-law,
Two hundred brothers-in-law,
Three hundred sisters-in-law,
Fifty odd mothers-in law,
All in one family
Stuck polygamily;
Think of their daily life
Full of domestic strife,
Cat fights and squealings;
Think of the tears and cries,
Then try to Ann Elize
Some of their feelings.

Turn not away from him,
Scorning to touch;
Go nearer—pray for him—
Married so much.

Oh! this is pitiful!
Sad house, with widows full,
Bravo—and fair!
Bachelors, think of it!
Go nearer the brink of it
Now if you dare!

Still with his bigamy,
Nick-named polygamy,
Leave him at rest;
Cross his hands humbly,
As praying dumbly,
Over his breast;
Owning his weakness,
The poor, erring creature;
And leaving with meekness
His mantle to———*

NEWS NOTES.

Savannah negroes have caught the Liberian exodus fever.

A poultice of red onions is the Alabama remedy for snake bite.

The Arkansas State fair will be held in Little Rock October 22 to 27.

The Alum Springs at Jordan, Va., were buried Thursday by a land slide. No lives lost.

The Rev. Hubbard Minter eloped from Nelson, Ky., with a fourteen-year old girl, deserting his aged wife.

It is asserted by the *Alta* that out of 33,000 votes cast in San Francisco at the late election all but 3,000 were scratched.

Atlanta renews the proposition to donate City Hall square and build a capitol as good as that in Milledgeville, if the city is selected for the capital.

Thurlow Weed is not acquainted with any of the gentlemen on the Republican ticket in New York. He thinks 'perhaps he knew their fathers, but he isn't sure."

Many egotists think they have influence in Washington, but when they arrive and try to accomplish their purpose they discover theirs is a "still small" voice.

Mr. W. W. Story, the American sculptor is complacently described by the London *Academy* of the 15th of September as one of "our well-known European artists."

It is hinted that many girls under age voted in the late Wyoming election, and no challenger was so ungallant as to check the fair sinners in their fraud. On the contrary the men rather admired their cheek.

In their joint discussions, Mr. Pendleton and General Garfield always commence by telling how much they love each other, and then proceed to show what small respect they have for each other's opinions.

Frank Leslie's liabilities, according to the schedule filed on Saturday, foot up $336,134 The nominal assets are put down at $230,308 and the actual assets at $75,166. The principal assets are the periodical publications.

It is said the New York Republican Convention did not represent the Republican party in that State. It would be interesting to know when the Republican party of that State expects to have a convention of its own.

The following is all the space given in a Texas newspaper to a lynching: "Dudley Hansford was hanged by a mob of forty men this morning, near his home, two miles from Perry, in this county. Too much cattle."

Ex-Senator Fenton doesn't harmonize with Conkling yet. These men have virtually changed places in their relationship with the administration, and if Mr. Fenton watches which way Secretary Evarts nods he may come in for something nice yet.

In acknowledging resolutions of respect for General Custer, passed by Hood's Texas (Confederate) brigade, at their late reunion, Mrs. Custer says: "I am glad to tell you how much admiration Gen. Custer felt for the courage and endurance of the Southern army."

Cole Younger, the notorious outlaw who is now serving a life sentence in the Minnesota Penitentiary, has become very devout, and spends much of his time reading his Bible and religious books. He says he is well satisfied with his present situation, and thinks he is just where he ought to be.

Mr. Blaine's Bangor *Whig* extends aid and comfort to Conkling in this manner: "It is enough now to know that the Republican Convention of the Empire State has emulated the 'stalwartness' of Maine and Iowa, and refused to hoist the 'Stars and Bars' above the flag of the Union to 'conciliate' the gentlemanly White Leagues and Rifle Clubs of the South."

Mr. D. H. Armstrong, whom Governor Phelps has appointed to succeed the late Senator Bogy, of Missouri, is an ardent believer in the future of the Western Democracy. He looks for a defeat under an Eastern candidate in 1880 but expects that then, under the new apportionment, the Westwill obtain control of the convention and make the platform and nominations.

GOLDSBORO, Oct. 2, 1877.

To the Editor of the News:

The recent rains have washed away culverts and done other damage on the A. & N. C. R. R., so that up to this writing no train has arrived here from Newbern since last Thursday. Passengers for points on that road are lying over here waiting for a train to come through.

The Inferior Court for Wayne county was held here last week, being probably the first one of the kind held in the State. It gave entire satisfaction. There were 9 cases, of which 23 were tried, resulting in 22 convictions and *one* acquittal. Nine were sentenced to the penitentiary. There were only two appeals to the Superior Court. Solicitor I. F. Dortch discharged his duties admirably.

The NEWS continues to grow in popularity here, as everywhere else.

AGRICULTURAL ENGINE AND SAFETY BOILER AWARDED THE

Premium at Roanoke & Tar River Agricultural Society, 1875. The Gold Medal, over all other Competitors, at the North Carolina State Fair, in 1876.

It is the most perfect and economical in use. The Boiler is of new design, being vertical, yet all the heating surface is entirely covered with water, thus preventing the fire from destroying the tubes as is the case, in a few years, in all upright tubular boilers in which the fire passes through the tubes above the water line, soon destroying the exposed end of the tubes causing them to leak.

LOCAL BRIEFS.

——The Raleigh Light Infantry are ordered to appear for drill to-night, at 7:30, with arms.

——Some one complains that the lamp at the North end of Wilmington street, near Peace Institute, is left unlighted every night.

——No supplemental premium list for the State Fair has yet been issued; it will probably be out and ready for delivery next week.

——The colored Working-Men's Association met at the Court House last night for the transaction of matters in the interest of their society.

——The members of the old local minstrel troupe (white) held a meeting at the Court House last night for the purpose of effecting a re-organization.

——The coping of the area wall of the Bagley building was laid yesterday. Soon we shall have pavement communication with the outside world in that direction.

——A meeting of the Advisory Committee of the North Carolina State Agricultural Society was held at the Yarborough House last night, pursuant to adjournment.

——The cotton receipts yesterday were not quite so good as on Tuesday, but, based on New York and Liverpool reports, prices were firmer and all offerings readily taken.

——Mr. R. H. Bradley will open a restaurant at Camp Russell during Fair week for the benefit of the military who will encamp there. He will feed cheap, and nobody feeds better.

——We were shown a monster specimen of weed, name unknown, in the office of Col. Polk. The "what is it" was brought in by Treasurer Worth, yesterday. The stalks are some 8 or 9 feet high.

——Messrs. R. F. Jones & Co., wholesale grocers, liquor dealers, etc., are among the most energetic and progressive of our merchents. They are prepared to meet competition in all the branches of their trade. Their advertisement appears in another column.

——Next Wednesday Cole's Circus opens here, when all who have not the money may bring good fat dogs (if not quite so fat they will do) and cats, to feed the "Varmints" on, and thus pay their way in kind. There are plenty of extra dogs in the country to feed the menagerie as long as it stays.

——The rain came down copiously again yesterday and last night. In proportion to size and population Raleigh has a smaller number of square feet of good walking pavement than any other town or city in the State. The reason is, in dry weather they are very good and don't need work, and in wet weather it is not a fit time to work them.

——Sheriff Riddick, of Gates county, arrived with three colored convicts from that county, on his way with them to the railroad works at Henry's, on the Western North Carolina Railroad—one for stealing a turkey, one a pair of boots, and one a pair of blankets. They left by the train west, at 2 o'clock this morning

——Miss E. E. Powell desires her customers and friends and the public generally to know that she has taken the store, No. 7, Mrs. Thompson's old stand, on Fayetteville street, for the more convenient display of her new and fashionable stock of millinery goods to an inspection of which the ladies are especially invited.

Improvements.

Messrs. Briggs & Sons are having a neat little cottage erected next to the old brick office, corner of Edenton and McDowell streets, fronting on McDowell.

Mr. G. W. Atkins, contractor, was engaged yesterday in laying the foundation of a new residence, 25 by 35 feet, to be two stories high, with an L 16 by 26 feet, on Jones street, opposite the D. and D. Institute, for Mr. Joseph H. Green.

The old rat den on the corner of Salisbury and Hillsborough street is, we learn, to be displaced at once by a new store building, 25 by 45 feet, two stories high. W. K. Davis, Esq., guardian for the owners of the property, is having the work done, and the building put up by Mr. G. W. Atkins. When finished it will be occupied by Messrs. Pritchard & Lewis as a family grocery.

W. R. Pepper, Esq.

We have hitherto inadvertently failed to notice the return to the city of that old and widely known Restaurateur, W. R. Pepper, from the Madison Warm Springs, where he spent the season as caterer for that popular resort, so much to the satisfaction of the proprietors, and especially to the guests. Mr. Pepper will re-open his *Restaurant* on Wilmington street, where he will provide for his old customers and the public all the delicacies that land and water furnish, and prepared as few beside Pepper know to how prepare them.

"Shoot the Hat!"

One can hardly turn around on our streets now without jostling the possessor of a "Creedmoor" hat. We acknowledge with a peculiar pride the receipt of a nod from one of the lordly owners of these the "latest in hats." The only drawback is that they remind one very forcibly of the "extinguishers used long ago. Their wearers, however, do not appear to be at all "extinguished."

Personal.

State Treasurer Worth returned to our city last night from his home in the West, where he has been for some weeks unavoidably detained by the illness and death of a member of his family.

Perrin Busbee, Master U. S. N., arrived last evening, and will spend some time on a visit to his relatives here. His numerous friends are happy to welcome him.

Duncan Cameron, Esq., Chief Marshal of the State Fair, Colonel W. F. Green, of Franklin county, and R. B. Peebles, Esq., of Jackson county, are all registered at the Yarbrough House.

Dry goods, notions, boots and shoes at the lowest prices, always on hand, at Zacharias & Co.'s, Fayetteville street. *

The Marriage Yesterday.

The Salisbury street Baptist church was filled to overflowing at the early hour of 7 o'clock yesterday, the attraction being the marriage of Mr. F. Louis Mahler, Chief Book-keeper of the Raleigh National Bank, to Miss Etta Reid, daughter of Ex-Gov. Holden.

Dr. Pritchard officiating, performed the ceremony.

At 7.15, Prof. Agthe at the organ played the Wedding March, and the participants in the affair advanced up the aisle in the following order: A. P. C. Bryan, Esq., and Miss Laura Agthe; Capt. P. F. Pescud, Jr., and Miss Hennie Kramer; George Bishop, Esq., and Miss Beulah Holden; John T. Pullen, Esq., and Miss Kate Fisher: these arranged themselves upon either side of the altar and on the steps; the groom and bride then advancing took position in the centre of the altar.

The simple, yet beautiful and impressive marriage ceremony was then performed, and with the sweet tones of the organ sounding in their ears, the happy couple made their exit.

At the door carriages were taken, and they were driven rapidly away to the R. & G. morning train.

They intend spending some weeks in the Northern cities, and will visit various points of interest.

The bride was handsomely attired in a dark traveling dress, "knickerbocker" pattern, which set off her graceful figure to great advantage.

Miss Agthe wore a dress of plum-colored silk.

Miss Kramer was also attired in a dress of the same color, but of a different shade.

Miss Beulah Holden appeared in a dress of dark-brown, as did also Miss Fisher.

The following gentlemen acted as ushers, and were especially polite and attentive in seating the audience; Messrs. M. I. Jordan, W. H. Pace, F. M. Moring and C. W. Newcomb.

Sugar Beets.

The Department of Agriculture distributed last spring one hundred pounds of French sugar beet seed in different sections of the State, with a view to determining the quantity of saccharine matter they would produce in North Carolina. If a certain *per cent.* is found, the establishment of sugar manufactories will be secured at once. The Chemist at Chapel Hill, we are informed, is waiting anxiously for samples of these beets and so far, has received only four lots. Surely those who have grown beets at the request of the Department will have interest enough in the subject so send a bushel or so by express to Dr. Ledoux at Chapel Hill, and this ought to be done at once, before the beet loses its sweetness and becomes stringy.

Send up samples, friends and let the Chemist determine their value. All expenses will be paid by the Department.

Our New P. O. Building.

The hard-finishing of this building is nearly completed. It is the intention of the Superintendent to have the first floor ready for occupancy by the 1st of December, if possible.

Workmen are busily engaged on the other floors, lathing, &c.

The heating apparatus was tested a few days since, and worked admirably. The iron vaults for the use of the money clerk and other officers are expected daily, and after they are placed in position work can proceed much more rapidly.

A Bit of a Row.

The colored Bucket Company held a meeting Tuesday night and opened exercises by lining out and singing a hymn. By way of contrast, or for the sake of variety, we understand they closed with a bit of a row, and a fight ensued between Sam Yancey and Harris Hogan. The particulars that we were unable to obtain will probably be given the Mayor to-day.

Mayor's Court.

His Honor Mayor Manly presiding. Only one case was on the docket yesterday.

Two worthies, one "plain" and the other "colored," were before His Honor, for an affray, and were sent on to the Criminal Court.

Appointments on Staff N. C. State Guard.

P. F. Pescud, Jr., of this city, and J. M. Cazaux, of Wilmington, have received commissions as Assistant Adjutant Generals, on General Jones' Staff, with the rank of Captain.

Board of County Commissioners.

This body met at the poor-house yesterday, to make their regular monthly examination of that institution. They meet here again to-day.

It gives me pleasure to annnounce that I can offer to an impartial public, goods at prices that have never yet been eclipsed in the city of Raleigh. My stock is the largest I have ever had—and I can assure my friends that I can satisfy them in all things in my line, as to quality, quantity and price. Live and let live. A. CREECH. *

M. T. Leach,

Wholesale grocer, cotton factor and commission merchant, whose announcement appears among our new advertisements, is a business man of undoubted rank among the representative firms of Raleigh. Having been closely engaged in the grocery trade for the past ten or twelve years, he has acquired the experience and knowledge necessary to make a successful merchant. Economical in his management, and operating under light expenses, with liberal resources, he can afford to sell at small advance over cost. Dealers will profit by forming the acquaintance of Mr. Leach.

Trial of Martin H. Holland.

The NEWS is indebted to a friend for the following special:

"Martin H. Holland had a preliminary trial at Apex to-day, (Wednesday,) for the shooting of the negro, Blue Bright, while resisting arrest for larceny. Justices A. C. Council, A. M. Betts, W. F. Utley, W. B. Jones and J. B. Alford sat in the hearing of the case, who, after a full investigation and the hearing of the evidence, acquitted the accused and he was released from custody."

J. P. Gulley,

One of our most prominent, reliable and energetic merchants, advertises this morning a heavy stock of dry goods, boots, shoes, clothing, etc., all selected with great care, for the fall trade. He has taken the agency for Dr. Warner's Health Corset, which he recommends highly for its superiority over the ordinary corset. Those who wish first-class treatment in every respect will always meet with it in Mr. Gulley's store. We can safely recommend him.

BUSINESS NOTICES.

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your Druggist about it. Sample Bottles to try sold at 10 cents. Regular size 75 cents. For sale by all first-class Druggists in the United States. *
